

Air-Lock™ Truck Dunnage Bags Features and Benefits

Clear Polymer Bag vs. Paper 2-Ply

	Clear Polymer	Paper 2 Ply
Freight/Storage	50 packs for JIT in UPS approved package 600 to 1200 units/box pallet	Not available 100 to 300
User Time	Takes under a minute per unit to position, inflate, and remove probe	Over 4 minutes
Free Freight	2 pallets	Varies but higher
Weight	Inflation probe and bag = 1.5# or less	Same structures = 5# +
Recyclability	#4 Same as stretch film	Metal, paper, glue, plastic
Vibration effect	Polymer bag clings to stretch film	Paper can migrate
Moisture	No effect	Absorbent
Cost	Lower	Higher
Clear	Transparent allows easy alignment	No visual
Valve location	Allows side inflation/deflation with simple probe system	Fill from face corner at right angle
